

Friends of Hepburn & Pinnaroo Bushland Inc.

The objective of the Friends Group is to promote and participate in the formal management, conservation, rehabilitation and protection of this precious area of urban bushland, to ensure long-term environmental sustainability and compatibility with human use. We strive to achieve this by:

- Raising community awareness of the bushland and the threats to its ecology.
- Encouraging community participation in the management of passive recreation and conservation in the area.
- Helping to protect the bushland from ecologically incompatible development and management.
- Becoming involved with the formal managers (City of Joondalup), in the rehabilitation and regeneration of adversely affected areas and in controlling weeds.
- Obtaining funding to support these aims.

It is essential to the continuing existence of this bushland that the Friends Group remains viable and active. So for this reason and as an Incorporated Association, we are required to maintain a reasonable number of members. We are therefore always keen to have new members join us. So if you are interested in helping to preserve this area, please consider becoming a member.

Membership Application Form

I would like to become a member of the Friends of Hepburn & Pinnaroo Bushland Inc. And enclose my \$5.00 annual membership fee.

Given Name: _____ Last Name _____
