

How to get there

Creery Wetlands Nature Reserve is located on the north-eastern side of the Peel Inlet, adjacent to the Mariners Cove residential estate and south-east of the Mandurah Bypass bridge.

Walk trails, viewing platforms and information have been provided by Cedar Woods Properties Ltd. Toilets are available at the nearby Mariners Cove Cafe.

Come and explore a fascinating environment on the fringes of the Peel Inlet.

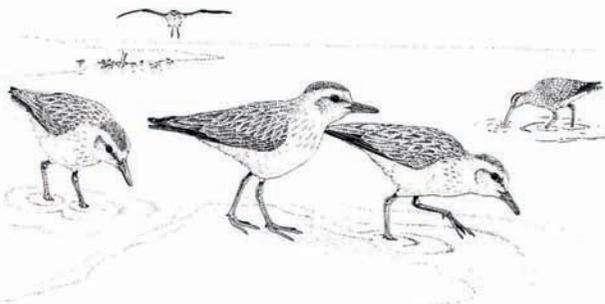

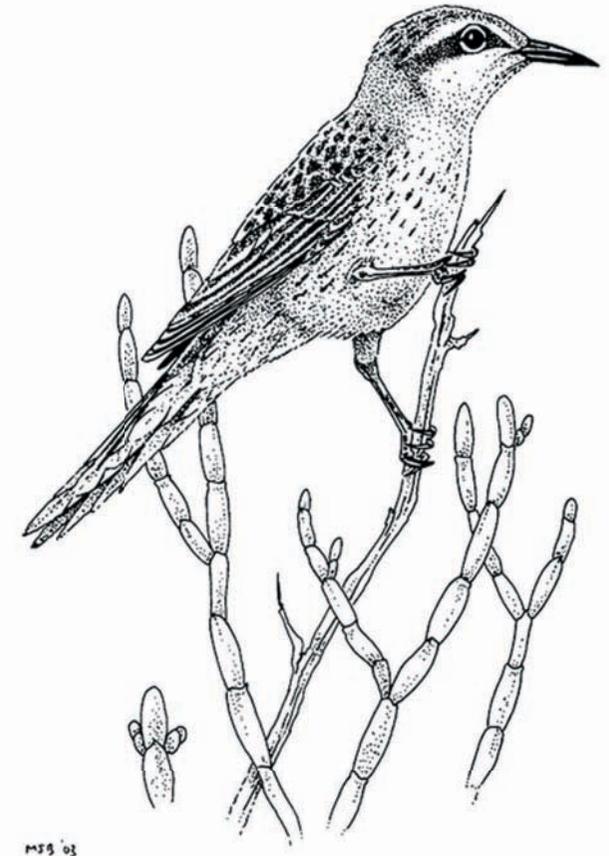

For more information, visit the Mandurah Samphire website:

Life on the Estuary Fringe

Creery Wetlands Nature Reserve

Life on the Estuary Fringe

Whether you are interested in birds, wildlife in general, or just enjoy a stroll by the estuary, Mandurah's sapphire areas are a fascinating and enjoyable environment to explore.

At Creery Wetlands Nature Reserve, boardwalks, viewing platforms and information panels have been provided by Cedar Woods Properties Ltd to help you understand and enjoy the changing estuarine environment.

The reserve is managed by the Department of Conservation and Land Management. For further information contact the Department's Peel Region office (phone 9582 9333) or visit the Mandurah Sapphire website:

An International Tourist Attraction

The Creery Wetlands are an important habitat for waterbirds, including 22 species of migratory shorebirds. These extraordinary birds, some weighing only 30 grams, spend the southern summer on lakes and beaches in Australia, then fly north to catch the summer in their northern hemisphere breeding grounds. The reserve is also home to a population of Quendas, a native marsupial.
